Sample 2: Quarterly Comparison (Bar Chart Visual)

This section, Sample 2, focuses on comparative visual analysis. The bar chart below provides a clear side-by-side comparison of Revenue vs Profit for each recorded period. Note the significant gap in Q4 periods.

Sample 3: Operational Review (Embedded Table Image)

The following section reviews sample data set 3. The data below is provided as a screenshot from our legacy ERP system and is not selectable text. Therefore, vision capabilities are required to extract the values showing revenue peaking around \$9867M.
